### Why Choose Secure Vote?

Built with security, accessibility, and transparency in mind

#### OTP Security

Every vote requires OTP verification sent to your registered phone or email, ensuring only verified voters can participate.

#### Real-time Results

View live voting results and comprehensive audit logs for complete transparency and accountability.

#### Easy Access

Vote from anywhere on any device. Our platform works seamlessly on desktop and mobile browsers.

### How It Works

Simple steps to cast your secure vote

1

Register & Verify

2

Get OTP Verification

3

Cast Your Vote

# Why Choose Secure Vote?

Built with security, accessibility, and transparency in mind.

## OTP Security

Every vote requires OTP verification sent to your registered phone or email, ensuring only verified voters can participate.

## Real-time Results

View live voting results and comprehensive audit logs for complete transparency and accountability.

## Easy Access

Vote from anywhere on any device. Our platform works seamlessly on desktop and mobile browsers.

## How It Works

Simple steps to cast your secure vote

1

### Register & Verify

Create your account with your voter ID and contact information. Complete identity verification.

2

### Get OTP Verification

When voting opens, receive a secure OTP code on your registered phone or email for verification.

3

### Cast Your Vote

Select your candidate and submit your vote. Your choice remains anonymous while ensuring authenticity.

## Ready to Vote Securely?

Join thousands of voters who trust our platform for secure, transparent elections.
